# EZ Touch

The infographic features a central image of a silver EZ Touch binder with three rings. Surrounding this central image are five callout boxes, each with a small inset image and descriptive text. On the right side, there is a vertical column of ten icons, each with a small text label below it. The callout boxes are: 1. 'Built-in Lock' (top left) with an inset showing hands closing the binder. 2. 'User-friendly Design' (middle left) with an inset showing a finger touching the button. 3. 'Flat Plastic Button' (bottom left) with an inset showing the button. 4. 'Enhanced Safety' (middle right) with an inset showing the ring mechanism. 5. 'Variety of Choices' (bottom right) with an inset showing multiple colored buttons. The vertical column of icons includes: 'Built-in Lock', 'Durable', 'Easy', 'Eco-friendly', 'Inexpensive', 'Multi-color', 'Safety', 'Simple', and 'User-friendly'.

**Built-in Lock**

- Safely locked once you close the ring mechanism. The built-in lock ensures the ring mechanism is not opened accidentally and papers are not scattering around when your file drops onto the floor. It keeps your documents securely.

**User-friendly Design**

- With a simple touch on the single plastic button, you can open it easily and comfortably by just one finger.

**Enhanced Safety**

- Equipped with our innovative Snag-Free ring mesh, there is no hassle when you turn papers and mesh misalignment will not occur. It also offers about 300% stronger pressure resistance than the conventional rings.
- The exclusive design of soft closing force makes EZ Touch safer than the conventional ring mechanism. Your fingers will not be hurt by closing the ring halves.

**Flat Plastic Button**

- The plastic button enables you to operate the ring mechanism at any angle. That is so simple and natural.
- Even misaligned or longer papers can be laid flat without hindrance.
- It can reduce the risk of nickel allergy because of less contact with the nickel-plated parts.

**Variety of Choices**

- Various ring shape, ring size and base width are available to cater for your diverse needs.
- You can choose among various colors of the plastic button to match your binders, and categorize your documents by different colors systematically.

**Icons and Labels:**

- Built-in Lock
- Durable
- Easy
- Eco-friendly
- Inexpensive
- Multi-color
- Safety
- Simple
- User-friendly

## More Efficient

- While filing or turning papers, you can use another hand to handle other tasks simultaneously.

## Environmentally-friendly

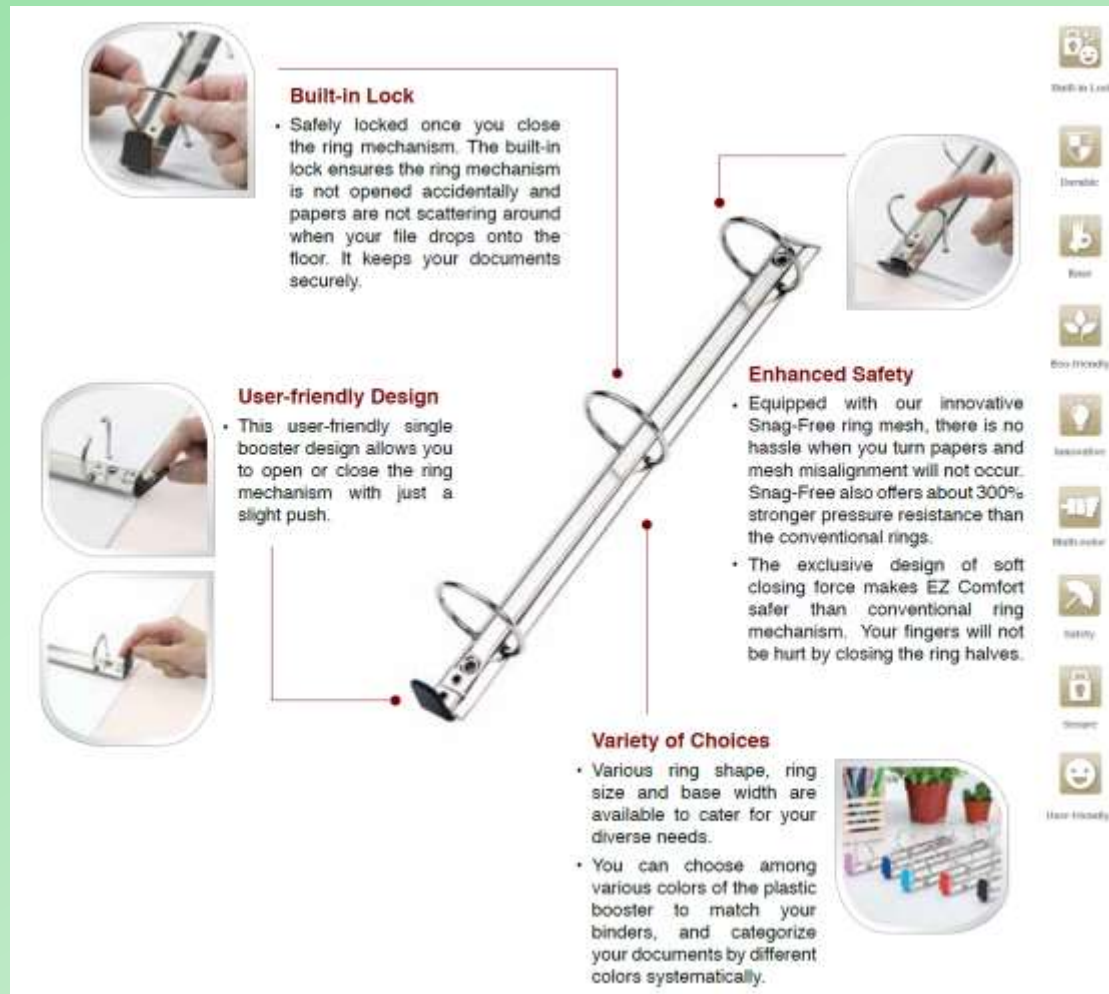

- The button is made of non-toxic and recyclable plastic material.

## More Durable

- Less vulnerable to rust on the plastic button, thus allowing a longer product life.

# EZ Comfort

**Built-in Lock**

- Safely locked once you close the ring mechanism. The built-in lock ensures the ring mechanism is not opened accidentally and papers are not scattering around when your file drops onto the floor. It keeps your documents securely.

**User-friendly Design**

- This user-friendly single booster design allows you to open or close the ring mechanism with just a slight push.

**Enhanced Safety**

- Equipped with our innovative Snag-Free ring mesh, there is no hassle when you turn papers and mesh misalignment will not occur. Snag-Free also offers about 300% stronger pressure resistance than the conventional rings.
- The exclusive design of soft closing force makes EZ Comfort safer than conventional ring mechanism. Your fingers will not be hurt by closing the ring halves.

**Variety of Choices**

- Various ring shape, ring size and base width are available to cater for your diverse needs.
- You can choose among various colors of the plastic booster to match your binders, and categorize your documents by different colors systematically.

**Icons:**

- Built-in Lock
- Therapeutic
- Water
- Eco-friendly
- Innovation
- Multi-color
- Safety
- Smart
- User-friendly

## More Efficient

- While filing or turning papers, you can use another hand to handle other tasks at the same time.

## Premium Outlook

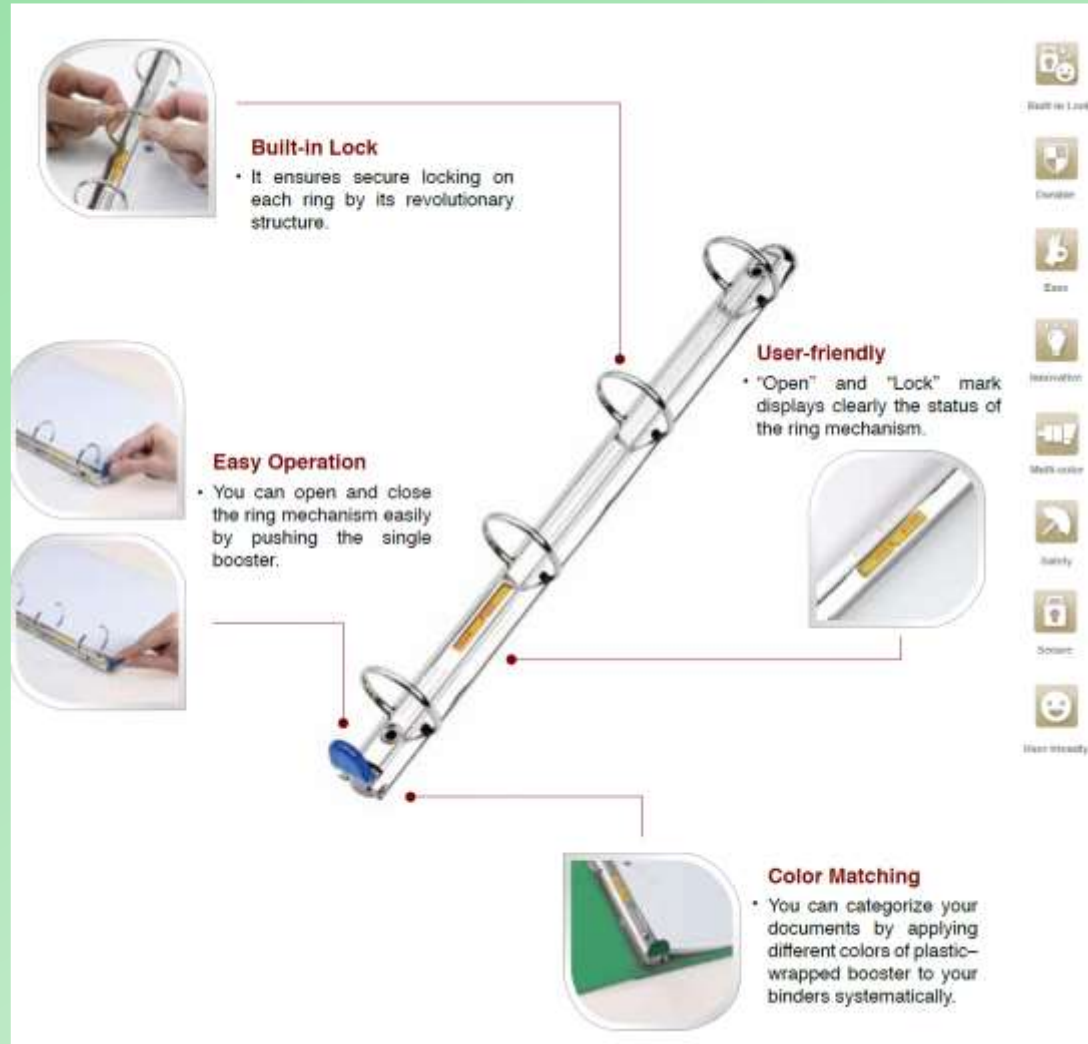

- Its high-end outlook can enhance the perceived value of your binders.

## Plastic Booster

- Less vulnerable to rust on the plastic booster, thus allowing a longer product life.
- Eco-friendly as the booster is made of non-toxic and recyclable plastic material.
- It can reduce the risk of nickel allergy because of less contact with the nickel-plated parts.

# Safe & Silent

## Silent to Open and Close

- While operating the ring mechanism, almost no noise is produced. This enables you to enjoy a quiet environment for either working or studying.

## Plastic-wrapped Booster

- It can reduce possible allergy risk by less contact with nickel-plated parts.
- The cold feeling of metal booster can be eliminated.

## Soft Tension

- Your fingers will not be hurt by the ring meshes.

## More Durable

- Less vulnerable to rust on the plastic-wrapped booster, thus extending the product life.

## Environmentally Friendly

- The plastic-wrapped booster is made of non-toxic and recyclable material.
